Mike - I am sorry too. I know you have been swamped for months and didn't need to waste time so I stayed on the periphery doing what I could for FF.

I am grateful to you for all you have done for FF and me.

There is so much more I have to say - but I will write your personal email.

I am so sorry for you. You have been the best and I will always be proud and honored to call you "my CEO"

God bless you!
