

Subject: Thank You/Financial Freedom

Mr. Perry,

First and foremost I want to thank you for the opportunity to work with such a great institution such as Indymac Bank. It means something to me when your Leader takes the time to communicate important issues as you have.

I'd like to ask what the future of Financial Freedom is. For the past 4 months I have put 100% of my concentration and efforts into reverse mortgages. Seeing how uncertain forward mortgages have been I decided to educate myself and concentrate exclusively on reverse mortgages. It has been my business plan in a whole. I have been working on meeting with the Senior communities in my area and preparing to attend their activities and provide them with seminars on the education of reverse mortgages. There is a great numbers of misconception out there. Reverse mortgages have become my niche and right when my efforts are beginning to prove benefit, I am faced with the termination my position. However I feel South Florida has a great reverse mortgage market.

The point of my email is to ask if there would be any possibility of maintaining a position with the company as a satellite employee? I can provide recommendation from my current peers as well as business partners whom a part of the business plan. My peers from Financial Freedom I am sure would provide great recommendation, as I work along with them through every step of the process. I have been able to submit a file and have it closed in as little as 15 days.

In conclusion I would be devoted to continue to work for the organization and provide a great number of production and profit.

Thank you in advance for your time and great leadership!
